

IIT DELHI

WORKSHOP ON UNIT OPERATIONS

Organised by

Department of Chemical Engineering, IIT Delhi

Date: 10th June to 14th June 2019

IIT Delhi is one of the institutes of eminence with 3rd NIRF India ranking and 40th Rank in QS University Ranking in Asia 2019. The Department of Chemical Engineering provides the best education to the brightest young minds in our country. The department regularly holds the workshop for the students of various engineering colleges/institutes so that these students can get an opportunity to interact with the faculty members of the department.

Enrol yourself, if you are:

1. Willing to have hands-on experience
2. Pursuing/completed B.Tech. in Chemical or Biochemical Engineering
3. Ready to get trained by IIT Delhi faculty

Courses covered in workshop:

1. Heat Transfer
2. Fluid Particle Mechanics
3. Mass Transfer
4. Fluid Mechanics

Advance equipment in workshop:

1. Particle Size Analyser
2. Surface Tensiometer
3. UV-Visible Spectrophotometer
4. Rheometer

Course Fee: Rs 4000 plus GST

Programme Coordinator: Prof. Anil Verma, Department of Chemical Engineering

HIGHLIGHTS

- **The workshop aims to provide hands-on training on various undergraduate level experiments along with the relevant theory**
- **One of the sessions will be taken by an international faculty member**
- **Exposure to some relevant high end analytical instrument**
- **Participation certificate will be provided**

Last date of online registration: 30th April 2019

For online registration and more details: www.chemical.iitd.ac.in or www.labtraining.in

Seats are limited and the selection of applicants will be on first-come-first basis.
